

How To study the Bible Part 2 Step 2 Video 2

Key Points:

- Remember that when we dive into God's word, we must prepare ourselves physically and mentally.
- When we don't focus first on the foundation everything else will fall apart.
- Context to God's word is crucial to the understanding of what God is trying to teach us, the purpose behind the book or letter.

Talk About It:

1. When we don't have our foundation set beforehand what happens? Why?
2. Why is it important to understand the context of Scripture?
3. From **2 Timothy 1:7**, what was the purpose of the letter to Timothy? And why is that significant?
4. Your turn... Practice what you have learned from the video by applying the five questions to **Galatians 2:20**.
(Who, What, Where, When, Why)
